

Cover Crop Roadshow

AGF Seeds and SANTFA would like to invite you to the SA Cover Crop Roadshow bringing together experience and research in this exciting new technique.

With quick adoption around the world; farmers have been using plants to improve soils and also selected plants to enhance farmers soils resilience. AGF Seeds have been at the forefront of cover cropping and organized the leaders of this exciting field to educate and promote this technique.

Sessions will be interactive and discuss local issues and cover crops ability to help your farming system.

The roadshow will entail paddock walks and presentations from leaders in this exciting field such as Annieka Paridaen (Premier Ag), David Cook (Pine Lodge, Nuffield Scholar) and Jackson Davis (AGF Seeds).

Topics to be discussed:

- Why cover crop?
- What are the aims?
- When do I cover crop?
- How do I do it?
- What have we learned and how can we cover crop in Australia
