SANTFA, Nelshaby Ag Bureau and Upper North Farming Systems Group are proud to host the

2013 Upper North Crop Walk

COMPARING SEEDING SYSTEMS & CROP EMERGENCE

Monday 24th June 2013

Registration is free, including a BBQ lunch
9am kick off – Meeting at the Warnertown
Pub. Wagon Train System.

As well as comparing seeders, conversations will focus on inter-row seeding success and fertiliser placement.

Stops include:

- Brian Tiller – 60 foot Flexicoil, 9 inch row spacings.
- Brendan Johns – DBS seeder, inter row, 12 inch row spacings, dry seeding.
- Phillip Johns – Conchord seeder & prickle chain (conventional).
- Malcolm Sargeant – Flexicoil, 12 inch row spacings, deep banding fertiliser.

SARDI Research Scientist, Margaret Evans, will talk about her research into managing crow rot through crop rotations and inter-row seeding.

SANTFA's Research & Development Manager Greg Butler will be on hand throughout the morning to answer questions from attendees.
